IN ADVANCE

## Brodhead

On Wednesday evening of last week, March 23, Robert H. B. Tremain and Miss Irene Van Dyck entertained at the school building, this was the fourth program of the continental Lyceum course, and while each of the proceeding programs were high grade and very entertaining none have surpassed this one. Mr. Tremain is a Canadian and told much of his early life. He was an orphan at early age and was reared by a Scottish family. He composed a greater number of his readings, the feature numbers were, "A colored camp meeting in Dixie," "Deacon Jones catching a rooster on Sunday morning," "Sid Perkins' courtship," and many others which brought screams of laughter to the audience. Miss Van Dyck is a thorough musician and possesses a very beautiful voice and rendered many numbers of lovely music and favorite songs. The next program, April 4th, International Glee Club, which consists of four young men, each one not only versatile, but wonderful musicians. Their program consists of vocal and instrumental numbers, readings, sketches, impersonations and is sure to please all—Mrs. O. W. Turpin is visiting her son Bub Turpin and family at Maresburg.—Mrs. F. F. Robbins and children visited her father J. R. Howard and sister Mrs. J. B. Green, on Copper Creek first of the week.—George Reynolds, after a three weeks visit with his sister, Mrs. O. F. Watson, has returned to Chicago.—Mr. and Mrs. Alfred Owens and children and Mrs. Marshall Owens were at Quail Sunday to visit Mr. and Mrs. Silas Owens—

W. H. Doan moved to his farm at Spiro last Friday, which he purchased from Barto Dillingham, and Josh Wilson moved to his property on Silver street, which was vacated by Mr. Doan.—Rev. and Mrs. A. J. Pike entertained at a birthday dinner, on Sunday March 13th, in honor of the twenty first birthday of their son, Goebel. The guests of honor were, Messrs. Ray Crawford, Will Sowder, Horace Terrill, Orren Wallen, Dan Grey, Les Elder, Alfred Frith, Minish Terrill, and Albert Jarrett. Misses Pearl and Bess Hicks, Mesdames, D. H. Grey, O. E. Wallen and H. E. Christie. The table was heavily loaded with eats. The main decoration was the huge cake with its twenty one burning candles. Goebel is the youngest in a family of ten living children, and Rev. and Mrs. Pike are grateful for having lived to see him reach manhood.—Uncle Mort Owens suffered a stroke of paralysis Sunday. He was reported better last report.—Miss Ida Brock and Mr. John York were married at the home of the officiating minister, Rev. A. J. Pike, March 24th, in the presence of a few friends.—Edgar D. Newland and Urban Cass are at home from Covington.—Mrs. H. E. Christie has been very sick with tonsillitis this week.—Misses Elberta Martin and Lillian Wallen very loyally entertained their friends with an all day Easter picnic last Sunday, reported an excellent time.—Misses Ella Belle Newland and Effie Reynolds were up from Crab Orchard for Easter.—Mrs. Willis Bussell still continues very sick.—Misses Katharine Jones, Ella Mae and Eliza Cummins spent the week end with parents at Stanford.—Rev. and Mrs. D. C. Gooch of Crab Orchard visited their nephew, Josh Wilson and family Sunday and Monday.—J. E. Wallen was at home from Danville Sunday.—Mrs. H. E. Christie and daughter little Miss Anna Elizabeth, and Miss Pearl Hicks have returned from a visit with friends and relatives at Danville and Lexington.—Mrs. J. M. Owens returned Saturday from a visit with her daughter, Mrs. Frank Sutton, at Lexington.—Miss Mary Saylor and Sarah Soward, of Langdon school, Mt. Vernon, visited the family of F. F. Robbins, Sunday.—Charlie Hendrickson is at home from Pineville this week.—Mrs. J. J. Painter and Children of Haddix, are visiting Mr. and Mrs. I. N. Vanhook, this week.—Mrs. Charlie Brown and Children of Livingston were the guest of Mr. and Mrs. A. M. Hiatt first of the week.—Mr. and Mrs. John Soward of Illinois, were recent visitors at the home of Mr. and Mrs. W. H. Sowder.—Roy Owens was at home from Corbin for

Easter.—Master Estell McBee little Misses Eva McBee and Mary and Margart Carter were in Mt. Vernon between trains Saturday.—Miss Pearl Hicks was hostess at an Easter dinner Sunday. Those present were: Misses, Pearl and Ella Belle Newland, Effie Reynolds, Pearl and Bess Hicks. Messrs. Ed Newland, O. E. Wallen, and Larkin Hicks Mesdames, W. F. Carter, and O. E. Wallen. A delightful day was spent by all.—Josh Wilson was in Stanford Monday.—Mrs. W. A. Murphy is in Stanford this week, having dental work done.

### PREVENTATIVE MEDICINE

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous disease that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the colds hang on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.

### THE SOY BEAN

The soil requirements of soy beans are quite similar to those of corn, but the plants will make a satisfactory growth on poorer soil than corn. The best results, perhaps, are obtained on medium loams, although clay and sandy soils may be made to produce good crops. The soy bean does not require a well drained soil, although a soil where water stands for a considerable length of time is not desirable. It is able to withstand a greater amount of moisture, however, than either cowpea or corn. The soy bean is also decidedly drought resistant; much more so than the cowpea.

### SOIL PREPARATION

Soy beans succeed best on thoroughly prepared soil. The land should be plowed early and deep, fitted, and then harrowed at intervals until the beans are planted. The young plants of soy beans are not able to push their way through a hard crust, as are corn and cowpeas. Thus, to insure a good stand, the seed should have a light covering of loose, mellow soil.

### FERTILIZERS

The use of commercial fertilizers is recommended where sandy soil predominates or the soil is of low fertility. Where fertilizers are used, good results have been obtained by using a dressing of stable manure or 200 or 300 pounds of acid phosphate. In using the commercial fertilizer it is well to apply broadcast before the beans are planted. Lime

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hill's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo Ohio, is a constitutional remedy is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred dollars reward is offered for any case that Hill's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo Ohio. Sold by druggists, 75c. Hill's Family Pills for constipation.

### INOCULATION

Soy beans, like other legumes, when well inoculated add much nitrogen to the soil. Natural inoculation now occurs quite general throughout the soy bean region in the southern United States. In localities where the crop has not been previously grown, however, it is advisable to inoculate. Inoculation may be most certainly secured by applying soil from an old soy-bean field, using 300 to 500 pounds of soil to the acre, or by dusting the seed with such soil before sowing. Inoculation can be secured from any seed company handling soy beans.

### SEEDING AND CULTIVATION

Soy beans may be sown at any time after danger of severe frosts is over, ranging from early spring until midsummer. As a rule, however, the late varieties are preferable and should be planted about the same time as corn.

Soy beans are grown either in cultivated rows or broadcasted, depending on the purpose for which they are grown. The row method is preferable in weedy land and usually gives larger yields of hay and practically all ways of seed.

The general practice for seed production is the row method, 30 to 40 inches apart. For hay, soil, or green manure is drilled or broadcasted crop furnished a finer quality of forage. In rows, from 20 to 30 pounds of seed to the acre are required; when sown broadcast or drilled, from 60 to 90 pounds.

Soy beans are generally drilled with an ordinary grain drill. By covering the feed cups not in use the distance between rows can be adjusted as desired. For small fields the ordinary garden drill does well.

Under proper soil conditions soy beans germinate in three to five days. As soon as the seedling plants appear above the ground cultivation may begin. Soy beans should receive at least three cultivations.

### ROTATIONS

Soy beans may be combined advantageously in many systems of crop rotation. The cash value of the seed is sufficient to encourage the growing of these beans as one of the main crops of the rotations as are cowpeas. In some localities a soy bean crop is grown between two wheat crops and in other parts between two oat crops. Wheat, winter oats and winter barley may follow soy beans.

### MIXTURES

Soy beans may be satisfactorily grown in combination with other crops, thus affording a greater variety and a larger yield of forage. A mixture of soy beans and cowpeas makes a very satisfactory hay. Soy beans are more generally grown with corn than with any other crop. When sown in rows with sorghum or Sudan grass they have

## To the Republicans of Rockcastle: LISTEN ONCE MORE PLEASE!

The STORY CONTINUES to roll that I am a Democrat. "He that believeth a lie shall be damned." "And he that tells lies shall not enter the kingdom of Heaven". Please take my word dear Republicans, I have only voted one time and I voted straight for Harding and my principles are Republican. Now, can I do or say anything to make it any more so. Some people don't only tell lies, but they tell me they have sworn them. So dear Republicans both women and men; "BEWARE OF A LIAR". I hope this will put you on the line of truth. And please cast the word democrat forever out of your minds in regard to me, don't say it again, for I'm just as sure a Republican, as the sun shines on a clear day. So pass the truth along to friends and neighbors, and look for me, I'M COMING. The roads are getting right, and so is DOLL, she has new shoes now, so look out! Hoping to receive the help and vote of every Republican in the County, I remain a true and truthful Republican.

Sincerely yours,  
MRS. LELIA MAY COOPER.

### VARIETIES

At the present time about 15 varieties of soy beans are handled commercially by seedmen, the most important of which are Mammoth (late), Hollybrook (medium late), Haberlandt (medium late), Medium Yellow (medium), Ito San (early), Guelph (medium), Barchet (late), Ebony (medium late), Peking (medium late), and Wilson (medium late). All of these varieties, with the exception of Barchet, are suitable for hay and seed production. The Barchet is especially adapted for hay and green manure in the Gulf States. For seed production alone the Mammoth, Hollybrook, and Haberlandt are to be recommended, while the Wilson, Peking, and Ebony are better adapted for hay. The Haberlandt is best for this section of Kentucky.

The County Agent, has made arrangements with Mr. C. E. Houk, Supt. of Berea College Farm, to sell Soy beans in small quantities to farmers of Rockcastle and Southern Madison at a reasonable price. Mr. Houk has the Haberlandt bean which is the best for our section. Call at once for your beans. They are going to the first coming. Get them while they last.

This article on Soy beans will be continued next week—watch our paper. Robt. F. Spence, County Agent.

The Junior Agriculture Club of Cove met at the home of Mr. and Mrs. W. C. Johnson, Wednesday night March 23rd. The meeting was enjoyable from first to last, with Club Leader and all members except three present. After singing of club songs the roll was called and each responded by telling what they intended to produce.

After discussions by different ones refreshments were served followed by benediction.

### SPRIO NEWS

Miss Lena Vanhook of Mt. Vernon has been visiting Mr. and Mrs. John Harris.—Mort Owens who has been sick for some time is slowly improving.—Mr. and Mrs. John McKinney visited H. G. Owens Sunday.—Little Misses Thelma and Elizabeth Minks visited their grandparents Mr. and Mrs. J. W. Mink Saturday night and Sunday.—Mr. and Mrs. W. H. Doan have moved to their new home at Spiro.—Misses Myrtle and Offie Owens visited their sister Sallie Denney Saturday night and Sunday.—Mr. and Mrs. V. B. Dillingham visited Mr. and Mrs. D. L. Dillingham at Quail Saturday night and Sunday.—Miss Talola Brown visited Miss Beulah Gentry Sunday.—Mrs. Lydia Albright visited her daughter Mrs. Bessie Proctor Sunday.—Mrs. J. W. Mink visited Mr. and Mrs. W. H. Doan Saturday.—J. N. Griffin will leave soon for his new home in Ohio.—Mr. and Mrs. Sam Sayers have moved to their new home near Brodhead.—Miss Dessie Long visited Miss Leila Pope Saturday night.—W. M. Brown visited Mr. and Mrs. J. W. Mink Sunday.—Mr. and Mrs. John Harris entertained their friends with an egg hunt Sunday evening. Mink Saturday.—Shelby Brown visited Ben Mink Sunday.—Mrs. Jim Noe is on the sick list at this writing.—Miss Mary Sowder visited Leila Pope Saturday night and Sunday.—Miss Elizabeth Owens visited Miss Hazel Long Sunday.

MRS. J. M. CRAIG, of Los Angeles, Calif., who says no one can feel more grateful for what Tanlac has done than she does. Has gained twelve pounds and health is better than in years.

"Of all the People who have taken Tanlac I don't believe there is anyone who feels more grateful to it than I do," said Mrs. J. M. Craig of 674 1/2 N. 4th street Los Angeles, Calif.

"I suffered from nervous prostration and was so weak that I could not even sweep the floor and during the day, would have to lie down four or five times. I tried to walk, but found out that half a block was all I could stand before I would give out. Nervous spells came on me often. Finally my husband urged me to try Tanlac and I am indeed glad he did, for it proved to be just what I needed."

"The first two bottles did not seem to help me. I guess it was because I was so bad off, but on the third bottle I could tell I was improving and that gave me more hope than ever of getting well. My improvement from then on was rapid and by the time I had taken five bottles I was better and stronger than I had been in years."

"It enabled me to sleep soundly at night and I have gained twelve pounds. That was several months ago and from then until now I have been in good health as I ever was in my life. I have told all of my friends and relatives what a wonderful medicine Tanlac is."

Tanlac is sold in Mt. Vernon by Chas. C. Davis; in Brodhead by the Brodhead Pharmacy; and in Livingston by R. C. Webb; in Burr by W. M. Owens.
